

Cheshire West Communities Together

Cheshire West Communities Together is a not-for-profit organisation that delivers community development support in the communities in Cheshire West and Chester with the most significant health inequalities. This service is part of a broader Early Intervention and Prevention programme commissioned by Cheshire West and Chester Council.

We are now looking to recruit a Community Development Worker who will take an asset based approach to community development focusing on strengths and capabilities within communities rather than deficits or needs. The successful candidate will support residents to nurture, sustain and build the assets in their communities to improve people's life chances and enhance positive health and wellbeing. The main target areas will be in Chester and Ellesmere Port.

Community Development Worker

Salary: £26,089 per annum

Hours: 37 per week

If you are an experienced Community Development Worker this is an exciting opportunity to be part of our community development team. If you would like further details about these posts and an application pack please email chris.davenport@cheshireaction.org.uk

The closing date for applications is 3rd December 2021 with interviews being held on 10th December 2021.
